

# Emerging Issues in Sexually Transmitted Diseases

June 7, 2012  
12 pm – 1:30 pm ET

## 2010 STD Treatment Guidelines Webinar- Update on Sexual Health in Men Who Have Sex with Men (MSM)

This live webinar is for clinicians who provide care for men who have sex with men (MSM). The webinar will review critical diagnostic and management challenges for specific STDs of concern, with an overview the epidemiology of STDs among MSM. The webinar will discuss recommendations specific to helping MSM establish and maintain sexual health. Components of the 2010 STD Treatment Guidelines and additional resources relevant to clinicians working with MSM will also be discussed. The webinar will conclude with a live question and answer session.

### Presenters

- ❖ **John T. Brooks**, MD, Leader, HIV Epidemiology Research Team, Division of HIV/AIDS Prevention, Centers for Disease Control and Prevention
- ❖ **Joel E. Gallant**, MD, MPH, Professor of Medicine and Epidemiology; Associate Director, Johns Hopkins AIDS Service, Johns Hopkins University
- ❖ **Jeanne M. Marrazzo**, MD, MPH, Medical Director, Seattle STD/HIV Prevention Training Center; Professor of Medicine, University of Washington School of Medicine

### Moderator

- ❖ **Gail Bolan**, MD, Director, Division of STD Prevention, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention

#### Questions for the presenters about sexual health in MSM?

Submit them before April 23 via Twitter to **@NNPTC** and use hashtag **#CDCMSMwebinar**

[www.twitter.com/NNPTC](http://www.twitter.com/NNPTC)

or email your questions to

**nnptc@uw.edu**

The speakers may discuss your questions during the event!

#### After this activity the participant will be able to:

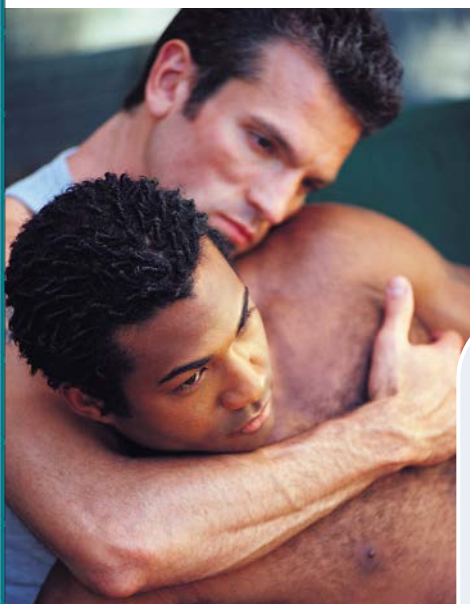

- Discuss clinical significance of the sexual health/clinical issue.
- Describe epidemiological trends related to the sexual health/clinical issue.
- Identify key screening and treatment recommendations for management of the sexual health/clinical issue, in accordance with CDC 2010 STD Treatment Guidelines.
- Promote health improvement, wellness, and disease prevention in cooperation with patients, communities, at-risk populations, and other members of an interprofessional team of health care providers.
